

AD INFERNA

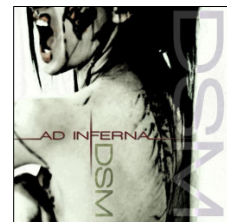

You are warned: do not try to label them. *Ad Inferna* has chosen to break down the barriers of musical genres to offer their own musical, visual and thematic style: each production is different and synthesizes their own personal evolution.

Consisting of members **V. Orias A.**, **V.V. Arkames**, and **V.N.A.**, *Ad Inferna* is passionate, violent, sexual and addictive. A bold mixture of Industrial, Darkwave, male and female vocals and hints of Metal, *Ad Inferna* gives a musical experience in a realm that no other band has ever dared to enter.

Their debut album *L'Empire des Sens* was released in 2002. In 2009 they released the acclaimed album *Trance N' Dance*, which features 12 tracks including remixes from bands such as Reaper, Soman, Combichrist and Beborn Beton. The album takes elements from Electro, Industrial, Metal and Gothic and features stunning vocals in both English and French.

Ad Inferna has signed with American label Nilaihah Records. With Nilaihah Records, *Ad Inferna* continues their musical evolution with their new, 100% electronic album *DSM*, co-produced and mastered by Vasi Vallis (Frozen Plasma, Reaper, NamNamBulu). The nine tracks are an electronic psychoanalysis. *DSM* is cutting, killer and addicting, and the ultimate tool essential for any DJ. *DSM* will be released worldwide on August 3, 2010 through Nilaihah Records.
