

END: THE DJ

END: the DJ is known for his hard hitting club DJ sets in the hard EBM, Rhythmic Noise, Hardstyle, Aggrotech & Industrial Dance genres. Breaking down boundaries in the Electronic music fields on dance floors while promoting the best independent artists is what motivates End to tour each year since 2006.

It was in 2005 that the name **END: the DJ** took shape, in the mid-U.S. at Industrial and dark music. Immediately after other clubs and event producers showed interest. End has opened for such artists as Panzer AG, Assemblage 23, FGFC820, Slick Idiot, Angels On Acid, Man + Machines & many more. END is also a part of Komor Kommando with Sebastian Komor and Northborne with Christian Lund, both of Icon of Coil fame.

END: the DJ hit the scene with his 2008 mix tape effort *The Chrome Elemental*. His debut was enough to get him ranked as the #1 Industrial DJ on The DJ List. He followed this up with his sophomore effort, *Endtrovert* on the Shinto Records label in 2010, which featured exclusive remixes and tracks by UBERBYTE, Angels On Acid, Stahlnebel & Black Selket and others. This release prompted album tours in the U.S., Mexico, Australia and New Zealand. Signing with Nilaihah in 2010, the much anticipated *Fire on the Shores* [EP] will be released in December 2010. It features collaborations with Assemblage 23, System Syn, UBERBYTE and Miss FD plus remixes by Northborne, Angels on Acid, Shiv-r and more!

This 'Fires On The Shore' release was produced by END: the DJ with the contributions of many artists and producers' contributions to benefit the Gulf Waterkeepers. Waterkeepers are the voice for the Gulf Coast's waters. They were the first line of defense against the

BP oil disaster. Their incredible knowledge of the marshes, wetlands, beaches and inner-coastal waters have made them invaluable first responders. Their commitment makes them critical and effective community leaders. Their wealth of scientific, legal and political expertise provides answers to the questions we have about our environment. Their dedication to a full recovery of the Gulf is unmatched. By purchasing this release, you help provide everything the Waterkeepers need to help save the Gulf, from protective gear and clean-up supplies, to emergency office space and food for disaster-response volunteers.

More information about them and further donations can be made at <http://www.saveourgulf.org>.
