After their successful debut, 'Sublimation,' Null Device returns with a mature collection of songs that explores various cultures, styles, and instrumentation. Weave Middle Eastern influences and guitar to their beloved and intelligent Synthpop sound and you will only scratch the surface of what you'll explore in these intricately created dance ballads. A must for fans of New Order, Depeche Mode, Natasha Atlas, Peter Gabriel, Conjure One, Delirium, Dead Can Dance and Talvin Singh.

**A Million Different Moments**, the second disc from the acclaimed electronic duo Null Device, sets an even higher musical standard than its predecessor, 2002's critically-lauded **Sublimation**. Deftly fusing elements of classic synthpop with influences ranging from Middle Eastern instrumentation to classical, trip-hop, and drum n' bass, Null Device ventures confidently into unknown territories to produce great reward sonically, vocally, and lyrically.

Fans of such acts as *Delirium*, *Iris*, *Portishead*, and *GusGus* will no doubt be entranced by Eric Oehler and Eric Goedken's infectious songs of longing and heartache. **A Million Different Moments** both elevates and expands the world of synthpop, leaving doubters of the genre's ability to expand in the dust and creating a landmark disc of incredible quality and depth.

Whether heard in a dark smoky club or in a warm bedroom on a chilly morning, **A Million Different Moments** continues Null Device's breakneck evolution, retaining their distinctive sound while pushing it to bold and exciting new boundaries. – DJ EUROTIC, *The Inferno*
