Muscle and Hate - A Tribute to Nitzer Ebb
Street date: November 22, 2005
Nilaihah Records - nr026

CD EP - 10 tracks

file under: Industrial, Hard/Dark Electro, EBM

Imagine one of the biggest electro collaborations of the year covering one of the most famous Industrial bands of all time! If you thought this would be another bad tribute album, you're dead wrong! This album is so infectious, it's almost as if Nitzer Ebb has resurged...

"Muscle and Hate" is the new project comprised of Sebastian R. Komor (of Icon of Coil, Monofader, Moonitor fame), one of the best electro producers to date, and XP8, complete with Doulas McCarthy-esque vocalist Paul Toohill (also of XP8.) An outstanding collection of cover versions of one of the most popular Industrial/Electro bands off all time: NITZER EBB. Now, you can hear the most popular Nitzer Ebb tracks with a modern yet powerful twist!

"The new generation of Nitzer Ebb is absolutely **wondrous!** I am very excited for the album to come out. But then, I know my lil' mind is bound to implode with impatience sooner or later."

"Good versions of **classic** EBM songs (especially love your takes on "Violent Playground" and "Control I'm Here")."

"I'm a die-hard Nitzer Ebb fan and this is by far one of the coolest things I've heard in a long time. **DON'T BE LAZY IN THE PLEASURES OF SIN!!!**"
